Senior Care Technology That Works

Unified Alerts has worked extensively with senior care facilities and has developed a “Senior Care Technology Plan” that can assist your Senior Care Facility with the challenges you face.

We have already done the research for you to put the right solutions in place.

Challenges You May Face

Resident goes for a walk on the campus and needs assistance – With no mobile pendant resident has no way to request assistance and it isn't discovered until the next day.

Current nurse call system is a legacy system that lacks the features required for a true continuum of care environment and is expensive to upkeep or upgrade.

Resident leaves their room without staff knowing and without wander prevention and location awareness capabilities the staff proceeds to spend the next 1–2 hours locating the resident when .

Staff are using multiple communication devices (pagers, cell phones, radios and desk phones) to communicate with each other on daily operation and patient care matters.

SOLUTIONS

- HOME CARE
- WIRELESS NURSE CALL
- WANDER PREVENTION
- RESIDENT LOCATION
- PERS PENDANTS
- ADL MONITORING
- MASS NOTIFICATION
- FIRE PANEL INTEGRATION
- ENVIRONMENTAL MONITORING
- MEDICATION REMINDERS
- ADVANCED CHECK-IN

HIGHLIGHTED SOLUTIONS

Wireless Emergency Call and Wander Management

Through a text to voice engine, alerts can be sent via voice and text to pagers, cell phones, desk phones, overhead speakers, email, text message, wall boards and more. This allows those being alerted or notified of events to be notified of at any time, any place.

- Mobile Pendants (PERS)
- Location Awareness
- Pull Cords (Wired and Wireless)
- Bed/ Chair Sensors
- Specialty Call Cords (air and light touch)
- Wander Prevention Sensors

Panic and Duress

Wireless panic/duress systems alert security personnel and your employees to threatening situations that may be developing.

- Fixed Panic Buttons
- Mobile Pendants

Mass Notification

Having the ability to notify large groups of people in disperse areas in an effective and efficient manner via multiple means of communication could save lives.

- Pagers
- Email
- Cell Phones
- Phone System
- CCTV
- LED Wall Boards
- Hands Free Intercom phone

Long Range Wireless

With our wireless communication solution your staff can receive all alerts and communicate with each other over one wireless phone/device.
